

Banquet & Conference Folding Tables

Folding and Rolling of tables. Solid Plywood Tops, Superior Folding Mechanisms, and durability work hand in hand for a product that lasts. Hence why since the beginning our tables have been the benchmark of "Banquet Folding Tables" in Malaysia

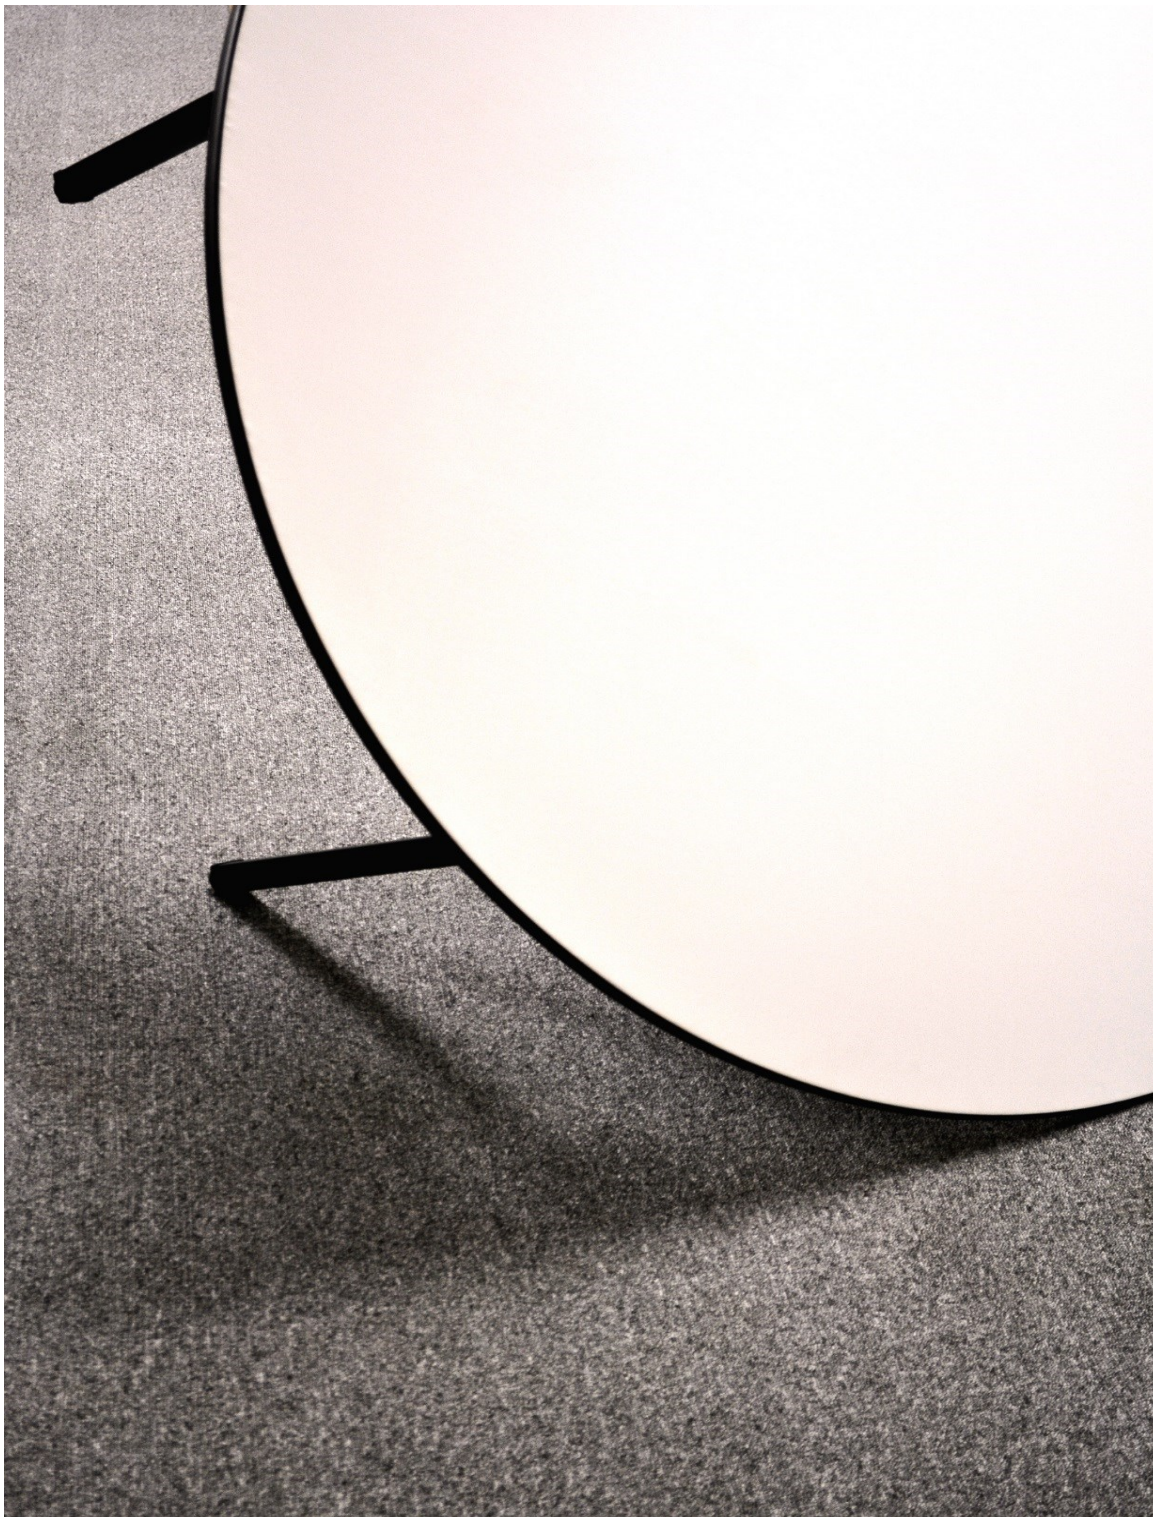

Table Tops

Tops are made from 18mm Solid Plywood for heavy duty daily usage. Edges are fitted with Vinyl T Edgigs for safety and rolling purposes on carpeted surfaces. Vinyl Tapauline Tops offer grip of table cloths. All Table Tops come with Rounded Edges for child and adult safety

Arm Handles + Underlay

Arm Handles come standard with All tables for carrying purpose.

Black Non Woven Underlay keeps operators safe from traditional wood exposed from splinters as safety

Folding Mechanism

Built to withstand table weights and from collapsing. Spring Lock Mechanism is durable and built specifically for everyday usage, wear and tear. Round Tube serves as foot peg for easy folding of table legs. Hinge Lock keeps Table Legs secure when folded in designated lock holder

Tubes + Studs

Table Legs are 32mm Square with radius given for bluntness. Thickness of 1.2mm is used as industry specifies. Studs are adjustable for uneven surfaces

ROUND FOLDING TABLES

Dimensions (mm) Folded Dimension (mm)

RDT CODE

114.5

Model No	Size (mm)	Folded Height (mm)	Weight
----------	-----------	--------------------	--------

RDT 60	1530 Round	114.5	36.4 Kilograms
RDT 66	1680 Round	114.5	40 Kilograms
RDT 72	1830 Round	114.5	43.6 Kilograms

Specifications

18mm Solid Plywood Tops	Spring Loaded Folding Mechanism
Vinyl Tapauline Surface in White or Black	Adjustable Leg Studs
32mm Square Hollow Steel Tubing	Arm Handle For Carrying Tables
1.2mm Steel Tubing Thickness	Rounded Table Edgings
