

Cafeteria Folding Tables with Benches

A new range of Cafeteria Folding Tables by Dheensay in addition to Cafeteria Folding Tables with Stools.

Benches allow for more comfortable seating to stools. For a more traditional style of seating, these Cafeteria Folding Tables offer Dheensay's traditional build quality that compromises in no way to our standards of manufacturing.

12 Seater or 8, the choice is yours

Manufactured in both 12 and 8 seater versions that caters to various requests, the choice is simply yours. Our tables are further more available in Adult, Primary (K12) or Child sizes that allow for appropriate ages to seat comfortably with our Cafeteria Folding Tables with Benches

Better Standards & Safety

Our table tops and benches are manufactured from **ONLY** 18mm Solid Plywood for long lasting durability and abuse. Surfaces for Benches and Table Tops are finished with High Pressure Laminates in a variety of Wood Grain and Plain Colours to select from. All edges on Table Tops and Benches come with Rounded Edges for safety against human contact.

Durability & Consistency

Our frames are one of the biggest in the Industry at 34mm in Diameter than the common 25mm. Frames are Robotically Welded for consistency and accuracy providing each table a better finish and stability. Superior strength comes with our Construction Grade Steel Tubing on all frames.

Enter & Exit

At 310mm or just over 1 foot, our tables allow for one of the easiest and friendliest access between benches the industry has to offer. At 310mm, this provides for a more friendly access for Adults and children. Rounded Edges on Benches once again ensure no sharp corners for shin and leg contact entering to Cafeteria Folding Tables

Operation, Ease & Cost

Our Cafeteria Folding Tables with Benches continue the tradition of ease of operation and saving you time and labour. With a 1 man operation to carry out daily set ups, tasks such as folding, setting up and converting spaces has been kept to the best efficiencies.
