

Cafeteria Folding Tables

For Indoor Cafeterias for Schools, Colleges, Universities, Staff Cafeterias and Factory Cafeterias. These tables are foldable and mobile for conversion of space for other uses such as a Gymnasium or Assembly Hall when required. Tables and Stools come together as a one time investment.

A one time investment in Stools and Tables

Never will the need occur to purchase both items separately. Having Seats and Tables as a Singular unit means easier movement and quicker set up times. Requires no need for arrangement, stacking and heavy lifting. Cost are reduced as compared with Modular units of Chairs and Tables

Superior Standards & Safety

Our tables are originally built for the purpose of students 12 and below, thus resulting in greater safety standards than adults. Rounded Table Top Edges, Durable Materials such as our 1500 pound load capacity for stools and Marine Grade MDF Tops are just some of the key standards we incorporate in our design that lacks in safety and standards today.

Operation, Ease & Cost

Cleaning of floors becomes easier with mopping. Cost of labour is reduced and operation time kept to a minimum for set ups of various types in any locality. Tables are operational with a few simple steps that are user friendly and work at ease with our special folding mechanism. No more heavy lifting.

Staff too are kept to a bare minimum of 2 - 5 personnel capable of handling 15 - 50 units within minutes for set up

CAFETERIA FOLDING TABLES 12 SEATER

Open Dimensions (mm)

Folded Dimensions(mm)

1460W x 3663L

Model No	Use	Seat & Top (mm)	Weight
CFT 12 C	Children	Seat 350H / Top 610H	101 Kilogram
CFT 12 P	Primary	Seat 382H / Top 686H	114 Kilograms
